

# MILLENNIUM 3

The Ultimate Ice Resurfacer. Non-polluting, Top Performing and Economical.

[www.resurfi.com](http://www.resurfi.com)

## OLYMPIA Millennium E Features:

- Over 30 years proven technology
- Front dump or side dump
- Full instrumentation
- On-board diagnostics
- AC electric motors on all 4 wheels
- Stainless steel water tanks (hot/cold)
- Aluminum alloy wheels
- Safety seat with 8 second delay shut off
- Board brush
- Automatic snow breaker
- Automatic towel bar lift
- Offset 84" galvanized conditioner
- Quick access vertical auger
- Replaceable conditioner runners
- Front and rear bumper wheels
- Complete lighting package includes bin light
- Parking brake
- Reversible auger system
- Adjustable traction control
- Power steering
- 4 wheel hydraulic disc brakes
- Proven battery technology
- High-frequency charger
- Integrated battery watering system
- Wash water with automatic shut off
- Warranty on machine – 2 full years
- Warranty on batteries – 5 full years 100%

### OPTIONAL:

- Stainless steel chassis
- Automatic blade control system
- Speed related ice making water system
- Automatic flood water fill system
- Back up alarm
- Tire wash
- Ice making water fill system with auto shut off

What Every Ice Resurfacers  
Should Be

## Clean Air, Clean Ice and Saves You Money

The OLYMPIA Millennium E is all that and more. It's driven by four AC electric wheel motors and it's the only electric machine that provides over 30 floods per charge. The cost of operating an OLYMPIA Millennium E is one tenth of the cost of a standard propane or natural gas ice resurfacers. You get over twice the number of ice resurfacings per charge as the nearest competitor using the same amount of charging time and energy cost.

No matter how you look at the OLYMPIA Millennium E you save time, money, and combined with the OLYMPIA Automatic Blade Control System, you will achieve perfectly level ice every time you resurface. The OLYMPIA Millennium E is the ultimate ice resurfacers.

### FRONT DUMP SPECIFICATIONS (LEAD ACID BATTERY):

Overall Length.....	162"	411.48 cm
Length Bin Open.....	228"	579.12 cm
Height Bin Closed.....	77"	195.58 cm
Height Bin Open.....	142"	360.68 cm
Overall Width.....	88"	223.52 cm
Blade Width.....	84"	213.36 cm
Turning Radius.....	180"	457.20 cm
Net Weight.....	10,582 lbs	4799 kgs
Gross Weight.....	12,853 lbs	5830 kgs
Snow Bin Capacity.....	103 cu ft	2.91 m3
Ice Making Water Capacity.....	184 imp gal	836 liters
Wash Water Tank Capacity.....	45 imp gal	204.75 l
Hydraulic Oil Tank.....	5 imp gal	22.75 l
Battery Voltage.....	80 volts	
Battery Capacity.....	770 amp hour	
Total Driving & Operating Power.....	17.9 kilowatts	

### BUILDING REQUIREMENTS:

Hot Water Supply.....1" npt male fitting on Drivers' Side  
Cold Water Supply.....1" npt male fitting on Right Side  
480/550/600 Volt 3 phase Service
